## Summary

A fresh Computer Science graduate with strong experience in web development and IT systems with a proven track record as a freelancer since 2022. Skilled in React and front-end technologies, with additional knowledge in databases, networking (CCNA), and cyber security. Equipped with strong analytical and problem-solving skills, and eager to contribute to the digital transformation and technology-driven growth of the banking sector. I aim to establish a software company that addresses diverse programming needs. Known for leadership abilities, problem-solving under pressure, and a deep love for coding environments.
