Ahmed Ayman Kamal Arafat

Web Developer (React)

✉ ahmedarafatt237@gmail.com 📞 +201091434793 📍 Egypt in Linkedin ○ GitHub

Summary

A fresh Computer Science graduate with strong experience in web development and IT systems with a proven track record as a freelancer since 2022. Skilled in React and front- end technologies, with additional knowledge in databases, networking (CCNA), and cyber security. Equipped with strong analytical and problem-solving skills, and eager to contribute to the digital transformation and technology-driven growth of the banking sector. I aim to establish a software company that addresses diverse programming needs. Known for leadership abilities, problem-solving under pressure, and a deep love for coding environments.

Professional Experience

Front end (React), *Freelancer*   01/2022
                                                                                                Remote
- Developed multiple front-end projects utilizing React, Tailwind CSS, Bootstrap, and modern JavaScript frameworks
- Successfully delivered projects for clients under tight deadlines and high-pressure environments

Education

Bachelor's in Computer Science, *Egyptian E-Learning University*   09/2021 – 06/2025
Grade : B

Certificates

- Front-End Development — ITI
- React Development — ITI
- CCNA Certification — Cisco
- Cyber Security — ITI

Languages

- Arabic
- English

Skills

Languages & Frameworks
- Frontend: React, JavaScript, HTML, CSS, Tailwind, Bootstrap
- Backend (basic): Node.js, Express.js
- Databases: SQL, NoSQL (MongoDB)
- APIs: RESTful design & integration
- AI & Data: Machine Learning, Deep Learning, Pattern Recognition, Data Analysis

Cybersecurity Awareness

Microsoft Excel
(Advanced: Pivot tables, Data Analysis)

Tools
Microsoft Office (expert), Git, GitHub, VS Code

Database Management
Database Management

Networking
(CCNA knowledge)

Problem Solving & Analytical Thinking

Other Skills
Leadership, team collaboration, problem-solving under pressure
